Dubai Law No. 13/2011 on the Regulation of the Conduct of Economic Activities in the Emirate of Dubai, and its amendments;

Dubai Law No. 1/2016 on the Dubai Government Financial Regulation, its Implementing Regulation and their amendments;

Dubai Law No. 6/2018 on the Dubai Health Authority, and its amendments;

Dubai Law No. 5/2021 on Dubai International Financial Centre;

Dubai Law No. 8/2021 on the Human Resources Department of the Executive Directors of the Dubai Government, and its amendments;

Dubai Law No. 13/2021 on the Establishment of Dubai Academic Health Corporation;

Dubai Law No. 26/2023 on the Executive Council of the Emirate of Dubai;

Dubai Law No. 19/2024 on the Regulation of the Law Enforcement Capacity in the Emirate of Dubai, and its Implementing Regulation;

Dubai Law No. 5/2025 on Public Health in the Emirate of Dubai;

Dubai Decree No. 22/2009 on the Special Development Zones in the Emirate of Dubai;

Dubai Decree No. 1/2023 on the Governance of Dubai Government Councils and Committees;

Dubai Decree No. 13/2024 on Creating a Unified Digital Window for establishing Companies in the Emirate of Dubai;

Dubai Executive Council Decision No. 49/2024 on the Regulation of the Practice of Health Activities and Professions in the Emirate of Dubai;

The Legislation establishing and regulating Free Zones in the Emirate of Dubai,

Hereby issue the following Law:

Article 1 - Title of the Law

The present Law shall be titled "Dubai Law No. 17/2026 on the Establishment of Dubai Longevity Authority".

Article 2 - Definitions

The following terms and expressions shall, wherever they appear in this Law, have the meanings assigned to them, unless the context requires otherwise:

Emirate: The Emirate of Dubai.

Ruler: His Highness the Ruler of Dubai.

Government: The Government of Dubai.

Executive Council: The Executive Council of the Emirate.

DHA: The Dubai Health Authority.

Authority: Dubai Longevity Authority.

Concerned Entities: Local government entities legally competent to regulate and supervise any areas and activities related to longevity, in accordance with their applicable legislation, including DHA, Dubai Academic Health Corporation, the Department of Economy and Tourism, and Dubai Municipality.

Chairman: The Chairman of the Authority.

Board of Directors: Board of Directors of the Authority.

Executive Director: The Executive Director of the Authority.

Longevity: The process of improving, enhancing, and sustaining an individual’s healthy life expectancy, and raising the quality of his health-related quality of life, through the following:

1. Providing comprehensive coverage of healthy lifespan requirements through therapeutic and preventive interventions that contribute to delaying the biological signs and markers of ageing, correcting the pathways of such signs and markers when they appear, and activating the body’s restorative, regenerative, and preventive mechanisms.
2. Adopting innovations and technological solutions in the field of advanced health and wellbeing, in a manner that promotes holistic health and supports responsible and sustainable lifestyles.

3. Developing precise measurement methods and enhanced detection of biological ageing indicators, and implementing proactive modification programmes to improve these indicators, using scientific protocols and advanced diagnostic tools.
4. Conducting assessment, treatment, activation, and continuous follow-up of health conditions associated with age, lifestyle, and the surrounding environmental factors of the individual, including conditions of a physical, physiological, psychological, and biological nature.
5. Employing advanced technologies, tools, and therapeutic products in proactive therapeutic and preventive interventions, and leveraging research and scientific development outputs to study and analyse ageing cycles, and to support and enhance the functional capacities of the body.

Activity: Includes any of the activities stated below that are carried out in the Emirate and are related to any of the fields of longevity:

1. Development, evaluation, and dissemination of advanced medical treatments and applied therapies.
2. Conducting research and development activities and carrying out laboratory and clinical trials, in accordance with the requirements and controls approved by the Authority in coordination with the concerned entities.
3. Providing therapeutic, preventive, and medical services and interventions.
4. Promoting, marketing, selling, or distributing products related to longevity, including advanced therapeutic products.
5. Any other activities determined by a decision of the Board of Directors.

Advanced Therapeutic Products: Any therapeutic method, technology, or product based on biological repair, regeneration, or functional restoration of the body, aimed at enhancing longevity and an individual's health-related quality of life.

Permit: The document issued by the Authority by which an establishment is permitted to carry out the activity, after meeting the conditions and procedures approved in this regard.

Establishment: Any company or sole proprietorship licensed by the Emirate's commercial licensing authority and authorised by the Authority to carry out the activity.

Article 3 - Establishment of the Authority

A public corporation shall be established by virtue of this Law under the name of "Dubai Longevity Authority". It shall have a juristic personality and the legal capacity deemed necessary to undertake the actions and dispositions that ensure the achievement of its objectives.

Article 4 - Headquarters of the Authority

The headquarters of the Authority shall be located in the Emirate. By virtue of a decision of the Chairman, branches or offices may be established in the Emirate or abroad.

Article 5 - Objectives of the Authority

The Authority shall aim to achieve the following objectives:

1. Enhancing the position of the Emirate as a leading global hub in the fields of longevity and advanced therapeutic products, by developing a world-class system that attracts companies and talent, and supports research programmes and strategic partnerships in these fields.
2. Enhancing the health and wellbeing of the Emirate's residents and visitors by enabling approved preventive, regenerative, restorative, and scientific activities related to individual health, designing personalised health programmes, and providing proactive, safe, and effective therapeutic and preventive interventions, as well as diverse and sustainable healthy lifestyle options.
3. Developing integrated regulatory frameworks that ensure safety, efficacy, ethical integrity, transparency, and individual protection in the fields of longevity, and establishing a safe and responsible environment for the gradual adoption of advanced therapeutic products.
4. Contributing to enhancing research, development, and technological capabilities in any of the fields of longevity by supporting clinical studies and scientific trials, facilitating a controlled transition from discovery to practice and commercialisation of related services and products, promoting the responsible adoption of associated solutions, and raising public knowledge and awareness of these services, products, and solutions.
5. Promoting strategic cooperation and partnerships between academic, healthcare, industrial entities, technology companies, and healthcare providers, in a manner that facilitates the exchange of expertise, knowledge transfer, and the development of advanced healthcare solutions that contribute to achieving longevity.
6. Contributing to the development of the economic infrastructure of the longevity sector by attracting investments, specialised talent, and industrial capabilities, facilitating technology transfer and business models related to longevity activities and services, and building an advanced market for advanced therapeutic products, services, and other offerings related to longevity fields.

Article 6 - Competencies of the Authority

The Authority shall, for the purposes of achieving its objectives and in coordination with the concerned entities, undertake the following tasks and powers:

1. Preparing the general policy and strategic plans for longevity in the Emirate, and presenting them to the Board of Directors for approval, prior to their endorsement by the Chairman.
2. Establishing and approving the systems, rules, regulations, standards, and protocols governing the practice of the activity in the Emirate.
3. Developing and operating integrated technical and digital systems and linking them with approved government platforms to manage procedures for issuing permits and approvals, regulatory processes, and to verify compliance with the legislation, systems, regulations, and protocols related to longevity, as well as to issue reports and exchange data between the Authority and the concerned entities.
4. Regulating the practice of the activity in the Emirate and providing programmes and solutions related to longevity, in accordance with the approved requirements, procedures, and controls in this regard.
5. Authorising establishments to carry out the activity in the Emirate through the unified digital window established under aforementioned Decree No. (13) of 2024, in accordance with the approved requirements, procedures, and controls in this regard.
6. Issuing the necessary approval for physical persons to practice activities and provide services, products, and solutions related to longevity, in accordance with the approved requirements, procedures, and controls in this regard.
7. Supervision, control, and inspection of establishments carrying out the activity in the Emirate, and ensuring their compliance with the provisions of this Law, the decisions issued pursuant thereto, the applicable legislation in the Emirate, and the conditions of the permit.
8. Classifying and defining the activities permitted to be practiced in the Emirate that are related to any of the fields of longevity and advanced therapeutic products, and establishing the regulations and rules governing the practice of such activities and the provision of services, products, and solutions related to any of those fields.
9. Regulating research experiments and the development of prototypes and pilot programmes in the field of longevity, and regulating and supervising the procedures for applying therapeutic tools and techniques under research trials, in accordance with applicable legislation.
10. Overseeing the safe use of advanced therapeutic products, and promoting awareness and supporting the adoption of evidence-based practices in their use by public and private entities and establishments.
11. Cooperating and coordinating with local, federal, regional and international entities in fields related to longevity, in a manner that ensures the achievement of the Authority’s objectives.
12. Participating in local, regional, and international exhibitions, seminars, and conferences held within and outside the Emirate in fields related to longevity.
13. Proposing legislation related to longevity, including legislation concerning advanced and regenerative interventions and therapies, and submitting it to the competent entities in the Emirate for appropriate action.
14. Establishing an integrated database for longevity, including clinical indicators and public health and safety standards, through the exchange of available data among concerned entities and enabling real-time data sharing, to support evidence generation and the assessment and development of policies and protocols based on such data, while ensuring compliance with the provisions of the legislation governing such data.
15. Promoting cooperation with universities and research institutes within and outside the Emirate in fields related to longevity, and facilitating the exchange of scientific and research knowledge and expertise.
16. Developing programmes and strategic partnerships between manufacturers of advanced therapeutic products, innovators, investors, and research centres, with the aim of supporting and stimulating investment in the field of longevity.
17. Any other duties or powers as necessary to achieve the Authority's objectives, that are assigned thereto by the Ruler or the Chairman.

Article 7 - Practice of the Activity

a- It shall be prohibited for any physical or legal person to practice the activity in the Emirate, including special development zones and free zones, including the Dubai International Financial Centre, unless they are authorised by the Authority to do so. Such permit shall be issued in accordance with the requirements and procedures approved by the Board of Directors through a decision issued to this effect.

b- The Authority shall issue the permit in coordination with the concerned entities through the unified digital window established under aforementioned Dubai Decree No. 13/2024, after meeting the prescribed requirements and procedures for its issuance, in accordance with the classification and type of activity related to longevity.

Article 8 - Competencies of DHA and the Concerned Entities

a- The provisions of this Law and the decisions issued pursuant thereto shall not prejudice the competencies assigned to the concerned entities under their applicable legislation.

b- When exercising its competencies under this Law and the decisions issued pursuant thereto, the Authority shall take into account the powers and competencies assigned to the concerned entities under the legislation governing the health sector and other applicable legislation in the Emirate.

c- DHA shall have the competence to supervise, regulate, and issue the necessary permits for professionals who are physical persons to carry out activities and provide services related to longevity, in accordance with aforementioned Dubai Executive Council Decision No. 49/2024, and in coordination with the Authority.

d- The Authority shall issue its approval to physical persons to carry out activities and provide services related to longevity prior to obtaining the necessary permits from the concerned entities, in accordance with the applicable legislation in the Emirate.

e- In the event of any overlap or conflict between the competencies exercised by the Authority and the powers granted to it under this Law and the decisions issued pursuant thereto, and the powers and competencies assigned to the concerned entities under the applicable legislation, the matter shall be referred to the Board of Directors to examine such overlap and conflict and to submit the necessary recommendations thereon to the competent entities in the Emirate for taking the required measures to consider and decide thereon in accordance with applicable legislation.

Article 9 - Organisational Structure of the Authority

The organisational structure of the Authority shall be made up of the following organisational levels:

1. Chairman.
2. The Board of Directors.
3. The Executive Body.

Article 10 - Chairman of the Authority

a- The Authority shall have a Chairman appointed under a Decree by the Governor.

b- The Chairman shall exercise the following powers and functions:

1. Adopting the general policy and strategic plans related to longevity in the Emirate.
2. Adopting initiatives, programmes, projects, studies and recommendations related to longevity, enabling the Authority to achieve its objectives.
3. Adopting the organisational structure of the Authority.
4. Any other relevant duties or powers to achieve the Authority's objectives, that are assigned thereto by the Ruler.

c- The Chairman may delegate any of the tasks and powers vested therein under Paragraph (b) of this Article to the Board of Directors, provided that such delegation is specific and in writing.

Article 11 - The Board of Directors of the Authority

a- The Authority shall have a Board of Directors, consisting of a Chairman, a Deputy Chairman, and a number of members, who shall be appointed by a Decree issued by the Ruler.

b- The provisions of aforementioned Dubai Decree No. 1/2023 and the decisions issued pursuant thereto, shall apply to the governance of the Board of Directors' business and meetings.

Article 12 - Competencies of the Board of Directors

a- The Board of Directors shall oversee the general supervision of the Authority's implementation of the tasks and powers assigned to it under this Law, the decisions issued pursuant thereto, and the applicable legislation in the Emirate, in a manner that contributes to achieving the Authority's objectives. It shall, in particular, have the following duties and powers:

1. Adopting the general policy and strategic plans related to longevity in the Emirate, and submitting them to the Chairman for approval.
2. Approving the Authority's general policy, as well as its strategic and operational plans, work programmes, and projects.
3. Approving the classification of activities and the types, fields, practices, services, and products of longevity permitted to be carried out in the Emirate, in coordination with the concerned entities, and issuing the related decisions and regulations.
4. Approving the Authority's decisions, policies, and regulations relating to the organisation of its operations in administrative, financial, technical, and contractual aspects, including the human resources system for the Authority's employees.

5. Approving the Authority's draft annual budget and final accounts, in preparation for submittal to the competent entities in the Emirate for approval.
6. Approving the organisational structure of the Authority, and submitting it to the Chairman for approval.
7. Supervising the Authority's operations and monitoring its performance in carrying out its assigned functions efficiently and effectively, in light of the approved policies, strategic plans, and programmes.
8. Approving the periodic reports submitted to it on the Authority's performance and presenting them to the Chairman for guidance.
9. Ensuring the efficient management of the Authority's financial resources and enhancing integration and coordination of roles between the Authority and the concerned entities.
10. Any other relevant duties or powers to achieve the Authority's objectives, that are assigned thereto by the Ruler, or delegated or assigned to it by the Chairman.

b- The Board of Directors may delegate any of its powers stated in paragraph (a) of this Article to any of its members or to the Executive Director, provided that such delegation is made in writing and is specific.

Article 13 - Formation of Supporting Committees

One or more committees shall be formed by a decision of the Chairman of the Board of Directors, comprising representatives of the concerned entities or other persons with expertise and specialisation. These committees shall provide support to the Authority by undertaking the following tasks:

1. Reviewing and proposing the systems, rules, regulations, standards, and protocols governing the practice of the activity, and the handling by establishments of advanced therapeutic products and other medicines related to longevity, and coordinating thereon with the concerned entities.
2. Proposing the classifications, types, fields of longevity, and related activities permitted to be practiced in the Emirate.
3. Proposing the standards, requirements, and procedures necessary for issuing permits to establishments to carry out the activity in the Emirate.
4. Proposing ethical standards for research and experiments related to longevity and advanced therapeutic products conducted by research institutions.
5. Proposing a mechanism for coordination and cooperation between government and non-government entities concerned with longevity, to study the biological, social, and economic risks associated with the use of advanced therapeutic products, and to propose regulatory frameworks for the use of such products.
6. Setting general instructions and guidelines on therapeutic and preventive interventions, consumables, and services related to longevity, as well as general frameworks that support the adoption of healthy lifestyles that enhance the sustainability of an individual's health span.
7. Proposing the necessary regulations to unify inspection and investigation procedures and to control violations committed against the provisions of this Law, the decisions issued pursuant thereto, and the applicable legislation in the Emirate, and establishing a coordination mechanism between the concerned entities regarding regulatory and inspection activities.
8. Any other tasks assigned thereto by the Board of Directors.

Article 14 - Unified Protocol

The Authority and DHA shall, in coordination with each other, prepare and adopt a unified protocol, which shall include the following:

1. Requirements for the management and protection of information and data of individuals receiving services, products, and solutions related to longevity.
2. The mechanism for media briefings related to longevity.
3. The mechanism for implementing awareness and health education programmes related to longevity, and for promoting healthy lifestyles and reducing risk factors that affect individual health.
4. Supporting systems and digital applications related to longevity.
5. Any other matters determined by the Board of Directors.

Article 15 - Executive Body of the Authority

The Executive Body of the Authority consists of the Executive Director and a number of administrative, financial and technical employees that are subject to the Human Resources' Regulation approved by the Board of Directors in this regard.

Article 16 - Appointment and Determination of Competencies of the Executive Director

a- The Executive Director shall be appointed by a decision issued by the Chairman of the Executive Council, and he shall be subject to the provisions of aforementioned Dubai Law No. 8/2021, and the decisions issued pursuant thereto.

b- The Executive Director shall be directly accountable to the Board of Directors for managing the Authority and supervising its operations and activities in a manner that ensures the achievement of its objectives and the exercise of the competencies assigned to it under this Law, the decisions issued pursuant thereto, and the applicable legislation in the Emirate. In particular, he shall have the following duties and powers:

1. Developing the general policy and strategic plans relating to longevity within the Emirate and submitting them to the Board of Directors for approval.
2. Developing the Authority’s general policy and its strategic and operational plans, submitting them to the Board of Directors for approval, and following up on their implementation after approval.
3. Preparing annual reports on the Authority’s work, performance, achievements, and activities, as well as the outcomes of the approved plans, programmes, and projects, and submitting them to the Board of Directors for such action as it deems appropriate.
4. Proposing the organisational structure of the Authority, and submitting it to the Board of Directors for approval.
5. Preparing the Authority's draft annual budget and closing account, and submitting them to the Board of Directors for approval in preparation for their approval by the competent entities in the Emirate.
6. Preparing the decisions relating to the organisation of the Authority’s operations in administrative, financial, technical, and contractual matters, including the human resources system for the Authority’s employees, and submitting them to the Board of Directors for approval.
7. Supervising the Executive Body of the Authority, and appointing employees with skills and competences.
8. Representing the Authority before third parties and concluding the contracts and agreements necessary to achieve the Authority’s objectives, within the limits of the powers assigned to him under this Law and the table of powers approved by the Board of Directors in this regard.
9. Forming subcommittees and permanent and temporary working teams to assist him in performing his duties, whether from the Authority’s employees or others, and determining the functions, powers, and working mechanisms of such committees and teams.
10. Any other duties or powers related to achieving the objectives of the Authority, assigned or delegated thereto by the Board of Directors.

c- The Executive Director may delegate any of the powers vested therein under Paragraph (b) of this Article to any Authority employees, provided that such delegation is specific and in writing.

Article 17 - The Authority’s Financial Resources

The financial resources of the Authority shall consist of the following:

1. The financial appropriations allocated thereto under the Government's general budget.
2. The fees and financial charges collected by it in consideration of the services it provides.
3. Grants and donations received by the Authority and approved by the Board of Directors.
4. Any other resources approved by the Chairman.

Article 18 - Accounts and Fiscal Year of the Authority

a- The Authority shall apply the rules and principles of governmental accounting in maintaining its accounts and records.

b- The fiscal year of the Authority shall start on the first day of January and end on the 31st of December of each year, provided that the first fiscal year starts from the date of enforcement of this Law and ends on 31 December of the following year.

Article 19 - Administrative Violations and Penalties

a- The Chairman of the Executive Council shall issue a decision determining the acts that constitute a violation of the provisions of the present Law and the decisions issued hereunder, and the penalties and measures to be imposed on the violators.

b- In addition to imposing the fine, the Authority may take any of the following measures against the violator:

1. Suspending the permit for a period not exceeding (6) six months.
2. Revoking the permit, and coordinating with the competent commercial licensing authority in the Emirate to revoke the commercial licence.
3. Any other measures determined by a decision issued by the Chairman, or stated under the applicable legislation in the Emirate.

Article 20 - Suspension and Temporary Cessation of the Activity

The Authority may, for any reason related to the requirements of public interest or the regulation of activities, services, fields, and products related to longevity in the Emirate, take any of the following measures:

1. Suspending the issuance of permits.
2. Suspending the activity of a licensed establishment in exceptional circumstances or in the event of any matter that may affect the continuity of operations.
3. Coordinating with DHA to suspend the permit of professional physical persons from practising professions related to longevity.
4. Any other procedures or measures determined by a decision of the Chairman in this regard.

Article 21 - Law Enforcement Capacity

a- The Authority's employees who are designated by a decision of the Executive Director shall be vested with law enforcement capacity in establishing the acts committed in violation of the provisions of this Law and the decisions issued hereunder. To this end, they may prepare the necessary records, and seek assistance from police officers when necessary.

b- The Executive Director may coordinate with the officials of the concerned entities to grant their employees the law enforcement capacity for the purpose of detecting and recording acts committed in violation of the provisions of this Law and the decisions issued hereunder. Such law enforcement capacity shall be granted in accordance with the provisions of aforementioned Dubai Law No. 19/2024 and the decisions issued pursuant thereto.

Article 22 - Grievance

Any interested party may file a written grievance with the Executive Director against the decisions, procedures or measures taken against it in accordance with this Law and the decisions issued pursuant thereto, within (30) thirty days from the date of being notified of the grieved-against decision, procedure or measure. The grievance shall be decided upon within (15) fifteen days from the date of its submission to the committee formed by the Executive Director for this purpose. The decision on the grievance shall be final.

Article 23 - Cooperation with the Authority

All local entities in the Emirate shall fully cooperate with the Authority and the concerned entities, meet their requirements, and provide them with all data, information, documents, statistics, studies, and reports they request and deem necessary to enable them to achieve the Authority’s objectives and exercise the competencies assigned to it under this Law, the decisions issued pursuant thereto, and the applicable legislation in the Emirate. They shall also provide assistance and support whenever requested to do so.

Article 24 - Outsourcing of Functions

The Authority may, following the approval of the Board of Directors and in accordance with the applicable legislation, entrust any of the concerned entities or any public or private entity with carrying out any of the duties and powers assigned to it under this Law and the decisions issued pursuant thereto. Such entrustment shall be made pursuant to an agreement concluded for this purpose, stating the rights and obligations of the parties thereto, as well as the conditions and requirements that the contracted entity shall observe when exercising the powers delegated to it by the Authority.

Article 25 - Issuance of Implementing Decisions

With the exception of the decisions that the Chairman has the competence to issue according to the provisions of this Law, the Chairman of the Board of Directors shall issue the decisions necessary for the implementation of the provisions of the present Law, after their approval by the Board of Directors.

Article 26 - Abrogation

Any provision of any other legislation shall be abrogated if it contradicts the provisions of this Law.

Article 27 - Publication and Enforcement

This Law shall be published in the Official Gazette, and shall come into force from the date of its publication.

Issued in Dubai on 6 June 2026

Corresponding to 20 Dhi Al-Hijjah 1447 H.

Mohammed bin Rashid Al Maktoum

Ruler of Dubai

This Law was published in the Official Gazette of the Government of Dubai, Issue No. 780 (Private), dated June 13, 2026, p. 5.
